

# Viral Software Instructions

Selling eBooks is one thing, but selling software is another!

For the past year MRR has offloaded similar pieces of software into the web, acting as Viral Tools to help promote our membership, now it's your chance!

In that year we managed to build up a list of 3000 subscribers to our email list, because we promised to hand over one brand new software product each month, do you see the potential?

You can add your own banners, add your own links, change the name, change the skins, promote the MRR Membership (If you want to) pretty much anything.

***You receive full Master Resell Rights and Giveaway Rights to this software.***

***Please make sure you DO NOT pass on any files from the DO NOT UPLOAD folder, or you will lose out.***

To Promote The MRR Membership (**Optional**) This Is What You Need To Do:

Login to MRR and go to the MRR Affiliate page here:

[http://www.masterresellrights.com/mrr/aff\\_member.php](http://www.masterresellrights.com/mrr/aff_member.php)

This is what an affiliate link looks like:

<http://www.masterresellrights.com/mrr/go.php?r=68&i=10>

Yours will obviously be different. Inside the rebrander all you need to add into the affiliate option is this:

***r=68&i=10***

Please change that to your details. Promoting the MRR Membership is absolutely optional.

These Viral Software products can easily send a flood of free traffic to your sites before you know it.

Good luck!
